A lot has been happening lately!

7suns is a brand that is constantly looking for new challenges and perfect solutions. That is why you will find a lot of new products here. Colourful lotions, butters, gels and dry oils. They are all united by one mission: even more beautiful and deeper tan.

But let's start from the beginning!

The Constant Bronze series has been a hit since the first days of sale. Is it due to the effectiveness of the Tan Synergy Technology formula, the distinctive black labels or maybe the formula that enhances the colour of tattoos? Be sure to check it out on page 6.

A completely different story is the Tanning Drinks series. Crazy, colourful tubes (ideal for taking on a trip), intense, juicy scents and ingredients... inspired by summer drinks. This has never happened before! And now - it is available on page 13.

A lot has also happened in the Special Line series. Here we can find an interesting, gel formula of Carrot Gelly and three new versions of the popular Gold & Glow oil! You will find them on page 22.

In the Golden Collection series - also a lot of changes - you will find three new products here! Elegant, slim tubes of Pure Charm, Bronze Delight and Tan Thrill contain ingredients that care for the skin in accordance with the well-ageing philosophy. You will find here, among others, ceramides, peptides, adaptogens and green caviar. For more - visit page 37, 42-43.

Discover

the diverse world of 7suns.

Constant Bronze

#fortheseekers

“

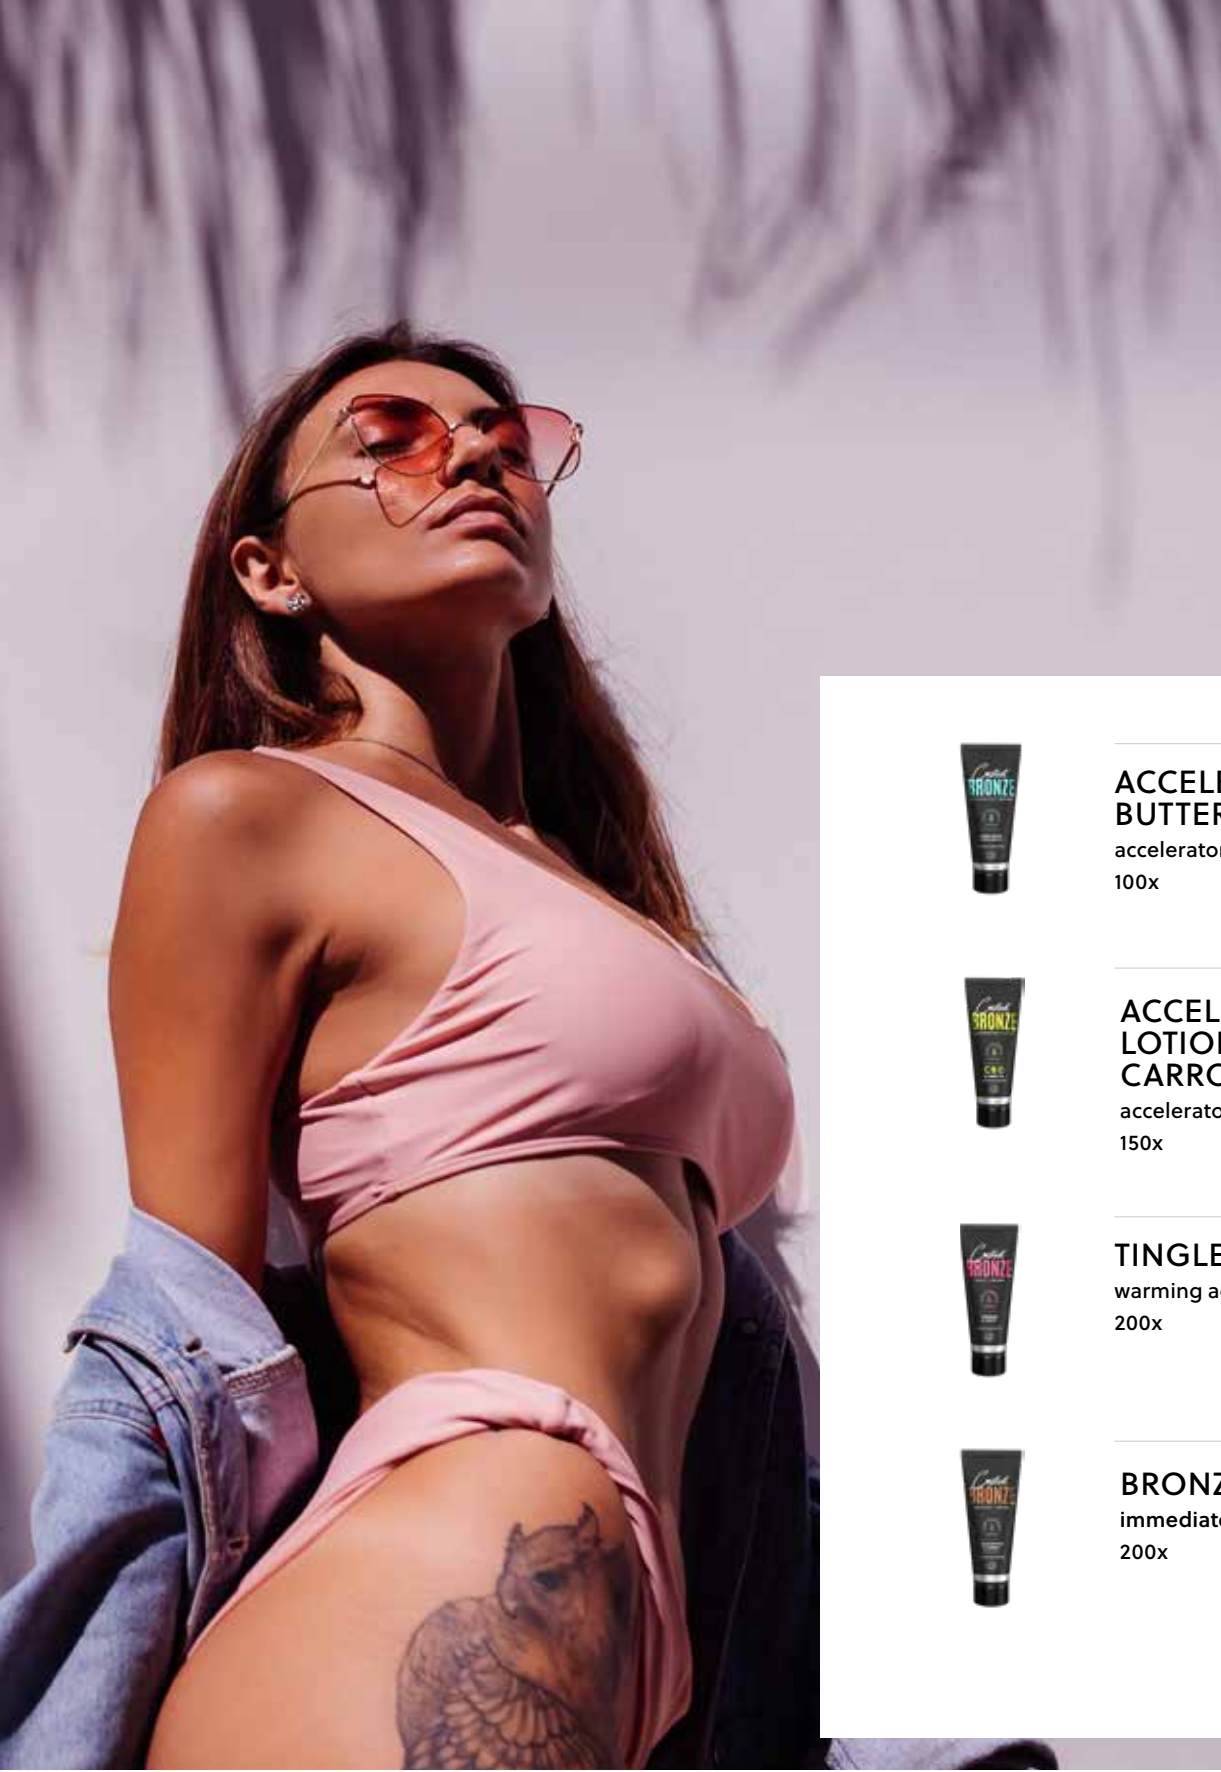

Power of synergy

Constant Bronze are colorful tanning lotions for active women and men, open to new things and constantly looking for better and better solutions.

The secret of Constant Bronze's effectiveness is Tan Synergy Technology – strengthening combinations of three ingredients:

1: UV rays;
2: a complex of ingredients that stimulate natural melanogenesis;
and 3: an innovative mix of emollients, more effectively transporting active ingredients into the skin.

Effects? Bronze appears faster and stays on the skin much longer! Each cosmetic in this series additionally contains the TATTOO ENHANCING formula.

- Original blend of emollients

Tanning Drinks

#forthosethirstyfor... aholidaytan

“

*Carefree, fun, summer, and...
a beautiful, golden tan*

This is the first line of tanning cosmetics inspired by the best summer drinks. If you use the product before (or after!) a tanning session at the solarium, it will make you escape from everyday life and enchant you with tropical, refreshing scents.

And if you want to take them with you on vacation... Handy tubes will eagerly jump into travel cosmetics bag. Their capacity (100 ml) allows you to pack them as carry-on luggage on the plane. We thought of everything! All so you can simply relax... And enjoy this moment of 100% carefreeness!

Meet our superpowers

Original 7suns cosmetics formulas

Protection
**ANTI-POLLUTION
COMPLEX**

Protects the young, healthy and radiant skin. Smog and other air pollutants are responsible for premature skin aging, irritation and inflammation.

The formula can be found i.a. in 97organic Bronzer (p. 30) and Shine (p. 20)

One-minute effect
**IMMEDIATE
BRONZERS FORMULA**

Selected ingredients of natural origin help to achieve a brown tan immediately after the tanning session.

The formula can be found i.a. in Jet Black (p. 49) and CODE Bronzer (p. 56)

Long time tanning
**DELAYED BRONZERS
FORMULA**

The formula is based on the action of erythrulose and DHA, the effect of which is visible just in a few hours. Good effects last up even to 4 days and in the result your tan will be saturated and durable.

The formula can be found i.a. in Paradiso (p. 52) and Cappuccino Legs (p. 25).

Skin moisturising
**HYDROBALANCE
FORMULA**

An ingredients mix provides to a long-lasting moisturising and based on the panthenol action (provitamin B5), glycerin and emollients.

The formula can be found i.a. in Tan Delight (p. 36).

Nature, nature, nature
**BIOTANNIG
FORMULA**

A special combination of sweet orange extract and natural citroflavonoids (natural dyes). It supports the production of melanin in the skin, resulting in a quick and long-lasting effect.

The formula can be found in most of the Golden Collection (p. 35) and CODE series (p.55)

Care and nutrition
**MULTIOIL
FORMULA**

The formula contains of carefully selected natural oils: coconut oil, hemp oil, which deeply nourish the skin and give it a healthy shine. Those oils you can find almost in all 7suns' products.

The formula can be found i.a. in HyaluRED (p. 24) and Sunny Tale (p. 47).

A perfect colour of tanning
 **MELANOBLEND FORMULA**

The secret of this formula is the natural activators of the melanogenesis process, the secret of this formula is a natural activators of the melanogenesis process, which builds a deep and long-lasting tan.

Various lotions are based on various types of this formula:

- Melanoblend **IONS** - biomimetic, active complex of tyrosine and ions of magnesium and manganese,
- Melanoblend **TYR** - as above, but based on tyrosine,
- Melanoblend **VITEX** - as above, but based on Vitex Agnus Castus.

—————
 This formulas serves as a base for many 7suns products - check e.x. Constant Bronze series (p. 6) and Golden Collection (p. 35)

 Lift and elastic skin
SKINFIRMING FORMULA

That improving formula is based on: caffeine, coenzyme A and the root extract crescent drill (Bupleurum Falcatum Root Extract). This formula mix is helping to absorb ingredients into the body and intensively improves it's elasticity.

—————
 The formula can be found i.a. in Ruby Red (p. 40) and Prom Queen (p. 38).

Energy boost + elixir of youth
TAN MINERALIS COMPLEX

A complex of active mineral ingredients with energizing effects. It accelerates cellular metabolism, supports the well-ageing process, reduces wrinkles, and evens out skin texture. It protects fibroblasts and also prevents the harmful effects of UVA. Additionally, it offers protection against so-called "indoor pollution", such as cigarette smoke.

—————
 This mix is a unique feature of the Tanning Drinks series (p. 13).

Deeper effects
TAN SYNERGY TECHNOLOGY

It includes strengthening combinations of three ingredients:

- 1: UV rays;
- 2: a complex of ingredients that stimulate natural melanogenesis (various types of Melanoblend);
- 3: an innovative mix of emollients, more effectively transporting active ingredients into the skin.

Effects? Bronze appears faster and stays on the skin much longer!

—————
 You will only find this technology in the Constant Bronze series (p. 6).

Full sales support in the solarium

Well-designed products are half the battle. Equally important is their proper presentation in tanning salon. We provide full support - leaflets, wobblers, posters and displays (acrylics and even wooden, eco-friendly options). We also prepared multimedia screens with short, educational and promotional videos!

Free Samples - an easy way to promote

Our 10 ml sample sachets will be a perfect solution especially for:

- Customers with skin allergies - that wants to test product before buying its full version;
- Customers who are still looking for a perfect tanning lotion;
- Customers attached to a drugstore lotions (they will quickly find out that a cosmetic designed for indoor tanning delivers way better effects).

Let's not forget about GIFTS!

We have prepared a very wide selection of smaller and bigger gadgets that will make our Customers' lives much easier and more enjoyable.

This is just a small preview...

Shine on social media (&more!)

Do you need something extra for your social media or to decorate your tanning salon? Beautiful photos, reels or maybe printable posters?

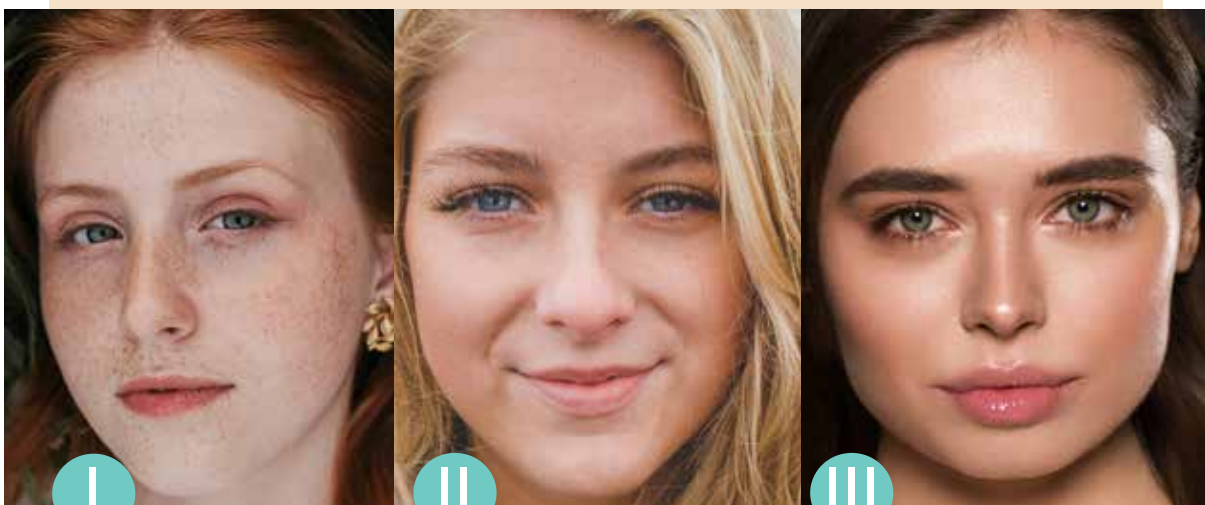

You will find a growing catalogue of **100% FREE** 7suns marketing and educational materials here:

What is your skin phototype?

Whether our skin is naturally light or dark is determined by the innate amount of melanin, i.e. a natural pigment. If there is more of it, we are talking about dark complexion, if less - light skin. On this basis, six basic skin phototypes were classified. Determining your own phototype is crucial when we think about effective and safe tanning.

PHOTOTYPE I CELTIC

☀️ **Diagnosis**

complexion: white / ivory
hair: red / very light blonde
eyes: light blue / green / light gray
freckles: a lot

☀️ **Tanning**

No skin pigmentation. Even a short exposure to the sun causes burns and irritation.

☀️ **Recommendations**

Avoid contact with the sun and tanning in the solarium.

☀️ **Cosmetics**

Long-term and regular use of cosmetics containing ingredients that stimulate the natural process of melanogenesis, may slightly darken the skin, without the need for exposure to UV radiation. Specialist lotions can be purchased from good tanning salons.

☀️ **We recommend**

Tan Delight, Constant Bronzer-Accelerator Butter, 97organic after tan

PHOTOTYPE II NORTH EUROPEAN

☀️ **Diagnosis**

complexion: fair
hair: light blonde / dark blonde
eyes: blue / gray / green
freckles: possible occurrence

☀️ **Tanning**

Possible, but with caution. Too long sessions can cause redness and burns. A tan takes a long time to appear.

☀️ **Recommendations**

Frequent but short tanning sessions. In the solarium, it is worth asking about a device equipped with less powerful lamps.

☀️ **Cosmetics**

People with a northern European phototype are more likely to use bronzers of light or plain balm colour. Gradual coloring allows you to fully control the shade of your tan.

☀️ **We recommend**

97organic bronzer, Paradiso, Pure Charm, After Mojito

PHOTOTYPE III CENTRAL EUROPEAN

☀️ **Diagnosis**

skin: slightly swarthy
hair: dark blonde / brown
eyes: hazel / gray / blue
freckles: rare

☀️ **Tanning**

The skin reacts well to small doses of UV radiation - they cause pigmentation and browning of the skin.

☀️ **Recommendations**

Tanning possible without any major restrictions. Beware of longer sessions in devices equipped with high-power lamps.

☀️ **Cosmetics**

All 7suns sun care products. For those who want to exceed their natural tanning limit, we recommend tinges that deepen browning. They stimulate microcirculation, making tanning more effective and effective.

☀️ **We recommend**

Gold & Glow, Constant Bronze-Bronzer, Tan Thrill

PHOTOTYPE IV SOUTH EUROPEAN

☀️ **Diagnosis**

skin: dark
hair: brown / dark
eyes: hazel

☀️ **Tanning**

A short exposure to UV rays causes pigmentation and severe browning of the skin. High resistance to sunburn.

☀️ **Recommendations**

Tanning without any major restrictions. Long exposure can cause wrinkles and premature aging.

☀️ **Cosmetics**

Regardless of the tanning session duration, we recommend using specialised lotions containing caring ingredients, preferably dark coloured.

☀️ **We recommend**

Pitch Black, American Glamour, Constant Bronze-Tingle Lotion

PHOTOTYPE V ASIAN

☀️ **Diagnosis**

complexion: brown
hair: black
eyes: hazel

☀️ **Tanning**

The skin is naturally protected against the sun. It tans very quickly and easily.

PHOTOTYPE VI AFROAMERICAN

☀️ **Diagnosis**

complexion: dark brown / black
hair: black
eyes: hazel

☀️ The skin of this phototype does not sunburn.
